Humanities Group
Dinajpur Board

Expertise

- Vulnerability assessment and penetration testing (VAPT)
- Mobile Application Security
- API Security
- Malware Analysis

Certification

Certified Ethical Hacker (CEHv11)
EC-COUNCIL
Certificate No# ECC1298506743

Experience

Senior Security Engineer - June 2025 to Present

BRAC IT Services Limited | Gulshan Avenue

As a Cyber Security Engineer at BRAC IT Services Limited, I ensure the safety of digital systems by identifying and resolving security vulnerabilities. I work closely with cross-functional teams to enforce strong security policies, monitor for potential threats, and respond promptly to incidents. I also contribute to developing cybersecurity guidelines and implement the latest security tools to strengthen system protection.

Cyber Security Engineer - June 2021 to May 2025

Dotlines Bangladesh Limited | Gulshan Avenue

As a Cybersecurity Engineer at Dotlines, I protect online systems by identifying and resolving security issues. I work with teams to establish strong security policies, monitor for threats, and respond quickly to incidents. I also help develop security guidelines, conduct regular training sessions to raise awareness, and utilize the latest tools and technologies to keep our systems secure.

Cyber Security Researcher - November 2018 to February 2019

OrangeBD | DOHS Baridhara

Working with the OrangeBD team was an exceptional experience. Our primary objective was to identify vulnerabilities in existing software, and I must say, it was a tremendous learning opportunity for me.

Founder & CTO - June 2018 to June 2021

InnerLoop

InnerLoop security leverages the power of ethical hackers to safeguard your digital assets from cyber threats. We help you boost your business performance by applying the best Cyber Security practices and cutting-edge technologies.

Bug Bounty Hunter - March 2017 to Present

Private & Public Programs

As a Bug Hunter, I've excelled in diverse Bug Bounty Programs, contributing to VAPT projects for web apps, mobile apps, and network security. My achievements include identifying vulnerabilities across all levels, maintaining up-to-date skills, and focusing on targeted Bug Bounty pursuits. I prioritize legal compliance across regions while consistently aiming to discover new bug types.
